20 Years of Excellence

allpack® has been serving industry with quality packaging materials and solutions for over 20 years, with continuous improvement year on year, always providing our customers with 'nothing but our best'.

Stock Management

A complete packaging management programme removing a) the need to carry large stock levels of bulky packaging at your premises, and b) the responsibility of maintaining sufficient packaging supplies to prevent any production stoppages.

Engineering Precision

With the unique manufacturing capabilities of the allgroup™ we are able to offer unrivalled levels of precision over a diverse range of products. With a capacity of over 300,000 tonnes of film per annum, 600 million square meters of tape and 1,000,000 kilometres of strapping from our polymers division! Coupled with our highly efficient corrugated conversion machinery producing millions of quality printed and plain cases, boxes and fittings.

Innovation Experts

allpack® provide innovative design solutions to a prestigious and diverse client list. With access to the latest state-of-the-art design software and machinery we have the capabilities of true concept to completion.

Quality and Quantity

Through state-of-the-art technology, allpack® provide cost effective solutions without a compromise on quality. Our integrated quality management system has merited us the full accreditation of ISO 9001.

Taking Responsibility

allpack® are committed to protecting the environment, promoting the use of sustainable resources and engineering the highest quality recycled materials.

allgroup

empowering supplier consolidation...

The allgroup™ company structure empowers supplier consolidation, providing single source packaging contracts for many blue-chip, multiple line, packaging users. allpack™ now boasts 4 separate divisions to the company, all of which are owned by its mother brand allgroup™.

allpack PACKAGING

This is the original packaging wholesaler which is the multi-depot, multi-million pound stock centre for all of our catalogue products; it also holds vast quantities of bespoke items manufactured by the other allgroup™ members for our clients to call off via bespoke stock holding agreements.

allpack POLYMERS

We have exhaustless capacity for blown, cast, and multi-layered co-extruded film products for thousands of varying applications which we supply to many internationally renowned commercial and household names through many market sectors globally. We partner hand in hand with the world's leading manufactures of a comprehensive range of pressure sensitive self-adhesive tapes in all technologies, printed, plain, acrylic water, hot melt and solvent based, as well as BOPP film and impregnated paper for masking tape production, with annual production capacity of over 600 million square meters. Along with these key strengths we are supported by the world's largest extruders of polyester and polypropylene strapping for the most demanding high volume, load stabilising projects. Manufacturing capabilities in excess of 1,000,000 km of polypropylene strapping (PP) and polyester strapping (PET) a year, enough to circle the equator more than 25 times!

allpack CORRUGATED

Innovative design solutions and tailored supply logistics serving a prestigious and diverse client list including major automotive manufacturers and their supply chain, through to pharmaceutical, furniture, building and decorative markets, electronics and the food and drink industries. Here we have the capability of producing millions of quality printed and plain cases, boxes and fittings across thousands of different specifications each year. With high quality 4 colour flexoprint, large rotary and flat-bed die-cutting, gluing and stitching machinery, 1,2,3,4 & 6 point gluing, gives a comprehensive manufacturing capability. Along with this state-of-the-art robotic automated machinery, allpack Corrugated partner with some of the world's leading sheetboard producers enjoying the benefits of some of the most cost efficient competitive pricing structures based on astronomical quantity breaks.

allpack EQUIPMENT

Our dedicated equipment division focuses solely on the supply and installation of specialist packaging machinery, equipment and other affiliated industrial, lifting, handing and storage products. Call our team today for expert advice on how the latest state-of-the-art packaging machinery developments can develop your business.

Ideal Location

Centrally located at the heart of our customers.

Same-day 2 hour delivery capability into 11 counties.

Next-day delivery throughout the rest of the UK.

TOTAL SERVICE

SMS programme

Stock Management System; a complete packaging management programme removing a) the need to carry large stock levels of bulky packaging at your premises, and b) the responsibility of maintaining sufficient packaging supplies to prevent any production stoppages.

CPP programme

Competitive Pricing Promise; for complete peace of mind that you are getting a fair sustainable deal on your packaging requirements.

TCSS programme

Time Critical Supply Solution; raising the game in Packaging Just-in-Time services, our TCSS programme guarantees to end your packaging supply problems.

EPD service

Elevated Packaging Design; creative thinking, an elevated view, and experienced packaging knowledge make our design team a cut above the rest when it comes to addressing your packaging design issues.

DAM's

Dedicated Account Managers; by entering into partnership with allpack® as your packaging provider, you are allocated a dedicated named account manager. So although you get given an account number, you are not treated as just a number.

CDM Programme

Customised Data Management; state-of-the-art, up-to-the-minute packaging data reporting to remove the headache of Packaging Regulation requirements, department budgeting, cost analysis, forecasting exercises etc.

TAKING RESPONSIBILITY

allpack® are committed to protecting the environment, promoting the use of sustainable resources and engineering the highest quality recycled materials.

Our policy

- Committed to reducing environmental impact
- Assisting you with environmental reporting
- Protect our planet culture

Our partners

- Promoting the use of sustainable resources
- Reducing carbon footprint and environmental impact
- FSC accredited partners

ACCREDITATIONS

- ISO 9001 & ISO 14001 - Quality and Environmental standards
- MPAS - Military Packager Accreditation Scheme
- Sedex registered - sustainable and ethical supply chains
- Supporting corrugated recycles campaign

Trojan™ Waterproof Cloth Tape

Also known as 'Duct' or 'Gaffer' tape, Trojan™ cloth tape has a layer of cloth and film laminated together to give it strength, then coated with a generous layer of adhesive.

- Resists moisture prolonging the tapes bond in moist or humid environments
- High tack adhesive sticks well to most surfaces
- Strong yet easy to tear by hand

Maxtape™ Masking Tape

A premium quality masking tape available in general purpose and high bake.

- Sticks to a variety of surfaces including; paper, fiberboard, glass, rubber, plastic and metal
- Crepe paper backing can be torn by hand
- Unwinds smoothly for easy control during application
- Seals, holds, bundles, labels, wraps and protects
- Choose high bake for high temperature applications

Palletwrap

Understanding the different types of film

Blown

Has additives to provide excellent cling and load stability and as result can be noisy when coming off the roll. Recommended for irregular loads or use in cold stores.

Cast

The high strength film that only sticks to itself. Silent unwind and excellent tear and puncture resistance. Clearer than blown film allowing for better optics and identification through the film.

Pre-stretched

The film is pre-stretched in the manufacturing process, which can increase the film strength, improve load stability, reduced wastage and is effortless to apply.

Selecting the best stretch film for your requirements

When selecting stretch films consider the following:

Performance

Selecting a stretch film that provides the right yield strength and performance for the loads being wrapped is crucial. The yield strength denotes the amount of stress a stretch film can withstand without permanently having plastic deformation. Prior to reaching the yield point a stretch film will elastically deform but return to it's original shape once the stress is removed.

We've categorised our stretch films into five different strengths:

Light (typically 11-14 microns)
Standard (typically 15-18 microns)
Heavy (typically 19-21 microns)
Extra Heavy (typically 22-26 microns)
Super Heavy (typically 28-34 microns)

Time, use & cost in use

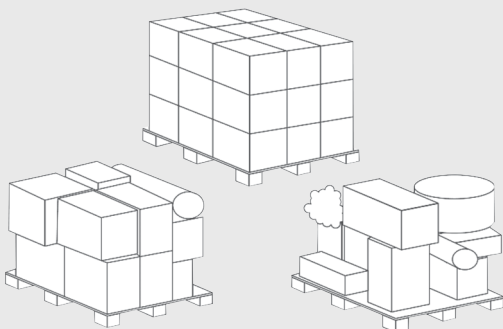

Hand wrapping is best suited for smaller or sporadic stretch film wrapping requirements. Also consider using a 500mm width roll rather than a 400mm, reducing the amount time taken and the number of wrap rotations. Introducing machine wrapping may ultimately save more time, resources and packaging materials.

Overlapping

This is a technique for covering the top of your pallet using polythene top sheets. This protects your products and secures load with a downward force. When overlapping hand applied films, it is recommended users allow up to a 50% overlap.

Load characteristics

Consider the products being wrapped, also look at the load weight (typically per pallet), the load profile (as pictured below), and the transit process the load will experience.

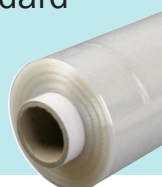

Neckdown

This happens when a film loses its dispensing roll width and narrows down while being stretched. Neckdown reduces the coverage each wrap provides thereby making it likely that more wrap rotations and more film will be needed to wrap a load or pallet. By using a pre-stretched film, the neckdown is considerably reduced.

e-stretch™ Hand Film

e-stretch™ films are stretched at the point of manufacture and rolled onto the core in its stretched state. Once applied the film contracts back to its original state.

- Pulls load tighter improving load stability
- Unlike other pre-stretched films, e-stretch™ is formulated to still have a residual 40% stretch
- Using a pre-stretched film reduces wastage by over 50%
- Application requires less tension so is quicker and easier to apply

sigmawrap™ Machine Film

A revolutionary product. Raw material blend innovation combined with cutting edge extrusion technology has delivered this ultimate in economical and effective wrapping to the market!

- Constant stretch while wrapping, guaranteeing stable and controlled use
- Greater stability and security of the packed load
- Reduction in the volume of generated waste
- Exceptional real cost savings - Cutting wrapping costs by up to 50%
- Stronger edges facilitating unwrapping and making the film less susceptible to edge damage

The SCIENCE

Sigmawrap™ is a uniquely formulated film made from 33 layers of high performance raw material components for maximum load stability and stretch capacity. It is this formulation that gives Sigmawrap™ significant benefits over conventional five layer PPS films.

Load STABILITY

Whilst reducing overall thickness in comparison to conventional films, load stability increases. With 33 layers of specially formulated films, Sigmawrap™ reaches out to untouched and unrivalled performance levels in load stabilisation & puncture resistance.

Carbon FOOTPRINT

Massive reduction in film waste and landfill impact. Sigmawrap will reduce film weights by up to a staggering 50%. Focusing on reduction of carbon footprint gives your company the cutting edge and proves your care and responsibility for the environment.

Cost SAVINGS

Yes, it's true... Increased load stability, reduction in film waste, ease of application & significant cost reduction! Proven savings compared to conventional films of up to 40%. Arrange a free consultation and trial today with one of our technical advisors.

Stretch Film Dispensers

Stretch film dispensers reduce the time it takes to wrap and protect your products, making it easy to protect every pallet. Whatever your wrapping requirements may be, we sell a roll dispenser to match. If you're on a budget, choose our basic plastic hand-held model that works with all 500mm rolls, or upgrade to a heavy duty version for everyday wrapping.

Semi-Automatic Stretch Wrapping Machines

orbitwrap

Classic (2000a)

- Superior Italian conceptual technology
- Operator friendly with a soft start/stop
- Consistently wrapped pallets and improved presentation
- Eliminate RSI claims
- 2m wrap height
- Max capacity - 1500kg
- Secure pallet loads professionally
- Recommended for use with megastretch™ film

Power Pre-Stretched (2000b)

- Superior Italian conceptual technology
- Operator friendly with a soft start/stop
- Speed up throughout use
- Consistently wrapped pallets and improved presentation
- Eliminate RSI claims
- 2m wrap height
- Max capacity - 2000kg
- Secure pallet loads professionally
- State of art wrap technology
- Pre stretch film before it touches the pallet
- Huge cost savings in film usage
- Recommended for use with sigmawrap™ film

Lay Flat Tubing - 120g

An incredibly simple but effective budget packaging solution with great flexibility. Used for packing long length items such as blinds, tubing, carpets and much more. Can be made into bags when used with an impulse heat sealer. Also available in black or a choice of colours for security of contents or quick identification.

- Protects items from dirt, dust and moisture
- Tear resistance
- Easy to seal using a heat sealer, tape or staples
- Recyclable
- Bespoke printing available

What is gauge (g)

Gauge is a measurement of thickness. It is related to the SI measurement of microns, a rough conversion is 1 micron = 4 gauge. These fall in to Light-Extra Heavy duty categories explained below.

Width in inches

Our range of layflat tubing is measured in the industry standard of inches. Use our Imperial to metric conversion chart in the back of the catalogue if you prefer to work in millimeters (mm).

Lay Flat Tubing - 250g

An incredibly simple but effective budget packaging solution with great flexibility. Used for packing long length items such as blinds, tubing, carpets and much more. Can be made into bags when used with an impulse heat sealer. Also available in black or a choice of colours for security of contents or quick identification.

- Protects items from dirt, dust and moisture
- Tear resistance
- Easy to seal using a heat sealer, tape or staples
- Recyclable

Maxkraft™ Masking Paper

- For masking off areas prior to spray painting
- Has excellent resistance to paint solvents
- Can also be used for lightweight wrapping

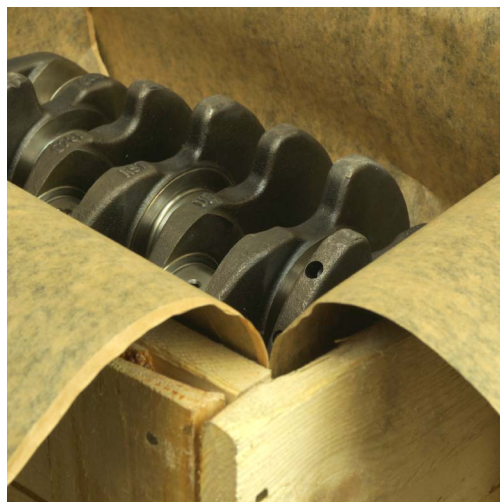

Code	Description	Pack Qty	Outer/Pallet Qty
12MP4590	45gsm 900mm x 300m	1 Roll(s)	30 Roll(s)
12MP4512	45gsm 1200mm x 300m	1 Roll(s)	30 Roll(s)

Kraft Union Paper

Kraft Union waterproof paper. Bitumen between layers of kraft paper provide a moisture and waterproof barrier. Ideal for export case lining or wrapping.

Code	Description	Pack Qty	Outer/Pallet Qty
12KU1290	120gsm 900mm x 100m	1 Roll(s)	50 Roll(s)
12KU1212	120gsm 1200mm x 100m	1 Roll(s)	50 Roll(s)
12KU1218	120gsm 1800mm x 100m	1 Roll(s)	25 Roll(s)

Waxed Kraft Paper

A Kraft paper coated with wax that acts as a barrier against leaking fluids. Waxed Kraft paper is ideal for use within automotive applications as a corrosion inhibitor, but also suitable for general export wrapping.

Code	Description	Pack Qty	Outer/Pallet Qty

Procell™ Foam Wrap

The ultimate protection for delicate or coated surfaces, ensuring your products are kept in perfect condition. Ideal for glass, wood or painted surfaces.

- Soft and strong, white foam cushioning material in a range of thicknesses and roll widths
- Protects delicate surfaces from scratches and abrasions
- Available as pre-cut sheets
- CFC and HCFC Free
- 100% recyclable

Shrinkit Gun

A popular system for heat shrinking polythene, available as a gun only or system which comes with regulator, 8m hose and swivel connector. Powered by propane gas.

Code	Description	Pack Qty	Outer/Pallet Qty
26SHRIGU	Gun only	1	1
26SHRISY	System kit	1	1

Ripack® Shrink Gun

Heat shrinks pallet covers and polythene sheeting to ensure protection for your products. The Ripack® 2200 comes with a double safety regulator, cold touch flame guard and 8m hose with swivel connector and carry case. Powered by propane gas.

Code	Description	Pack Qty	Outer/Pallet Qty
26RI22GU	2200 gun only	1	1
26RI2000	2200 system kit	1	1

Gas Bottle Trolley

Ideal for moving heavy gas bottles around, allowing shrink guns to become mobile.

- Increases operator efficiency
- Safe handling
- HSE approved

Code	Description	Pack Qty	Outer/Pallet Qty
26GBTROL	For standard gas bottle	1	1

Heat Sealers

A range of heat sealers available with or without a cutting blade. Ideal for sealing layflat tubing or polythene bags. For bag trimming and layflat tubing, a cutter is required. These sealers are suitable up to 1000g polythene and are fitted with an adjustable timer.

Code	Description	Pack Qty	Outer/Pallet Qty

biofil™ Biodegradable Loosefill

biofil™ is a revolutionary 100% natural biodegradable loosefill that is inexpensive and protects your product as well as the environment with none of the negative impacts associated with polystyrene. It is the lowest static loose fill available so is ideal for applications in the electronic or mail-order industry.

- Environmentally friendly
- Lightweight
- Dust free
- Low static

Code	Description	Pack Qty	Outer/Pallet Qty
10BIL015	15 cubic feet	1 Bag(s)	1 Bag(s)

fastfil™ Polystyrene Loosefill

Premium polystyrene loosefill is a versatile, ozone friendly, protective packaging material composed of highly resilient, low-density polystyrene shapes of interlocking expanding polystyrene.

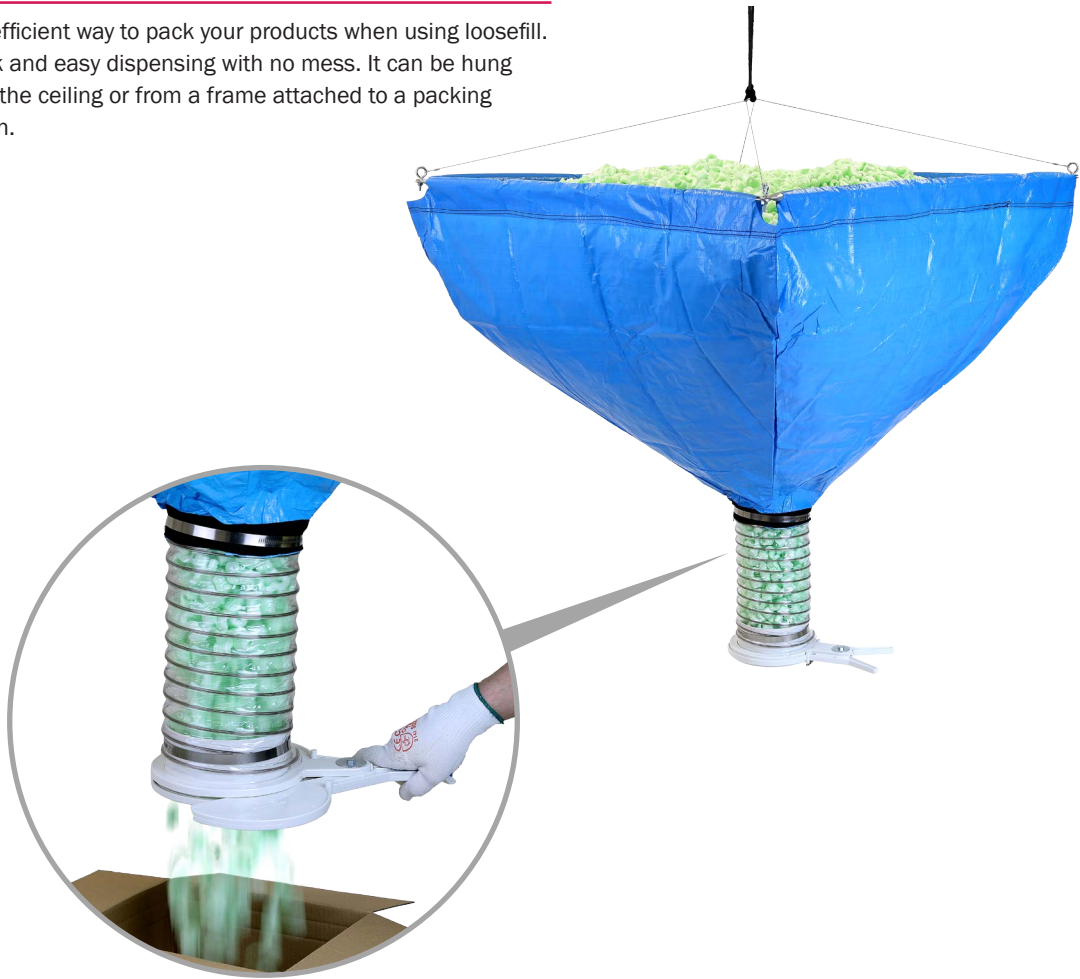

- Manufactured from 100% recycled material
- CFC free.

Code	Description	Pack Qty	Outer/Pallet Qty
10POL015	15 cubic feet	1 Bag(s)	1 Bag(s)

Loosefill Hoppers

The efficient way to pack your products when using loosefill. Quick and easy dispensing with no mess. It can be hung from the ceiling or from a frame attached to a packing bench.

Code	Description	Pack Qty	Outer/Pallet Qty
261BAHOP	Capacity 15 cubic feet	1	1

Instapak® Foam

Fast, easy, versatile, the Instapak® foam packaging process allows in-line, on-site production of polyurethane foam packages. Instapak® packaging provides protection against shock and vibration during shipping and handling for cushioning, void fill or block and brace applications. Moulds exactly to the shape of the product for ultimate protection.

airtech™ Voidfill Systems - Mini

Light and compact: airtech™ Mini is the ideal equipment for every workplace. Integrated with a silo or as a table top device, the machine can also be mounted on a stand.

Specifications:

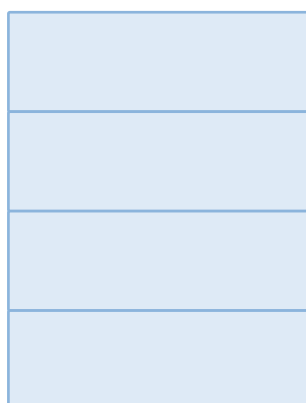

- Size: 354 x 670 x 370 mm
- Weight: 10,5 kg
- Voltage: 95-250 V (AC)
- Energy consumption: 120 watts in continuous operation, 8 watts in idle operation
- Speed: 12 m per minute
- Air supply: room air

airtech™ Voidfill Systems Integration

Vastly improve productivity, save space and keep your workplace tidy. By using a professional air pillow packaging, this will reduce breakages, minimise environmental impact and enhance presentation of your products.

- Increases packing productivity – have the packaging just where you need it.
- Saves space – keep the voidfill above your pack station.
- Time saving – sensors on the hopper automatically replenish voidfill as required.
- Modular design enables constant growth & development.
- Flexible options – tailored to fit your current packing area.

Want to know more about air pillow integration?

Paper Shooter Voidfill System

Our fast paper void fill system produces a bulkier multi-layer protective paper packing material that gives you a greater yield from your one-ply Kraft paper packing supplies than crumpled paper systems. It offers better protection than crumpled paper, plus it speeds packing and reduces worker fatigue. In addition, this well constructed, high-tech machine offers ergonomics and flexible features for working comfort and improved productivity.

Tabletop Model

- Size: 40" H x 18" W x 24" D
- Weight: 39 lbs

Floor Model

- Size: 69" H x 24" W x 24" D
- Weight: 63 lbs

Features

- Very fast variable speed output of 220 - 720 fpm
- Paper crimping system traps air to create bulkier void fill using less paper
- Automatically dispenses and cuts layered packing paper
- Hands-free foot pedal operation
- Dispensing carton for fast easy roll changes
- Ergonomic height adjustment
- Free rotating head
- Recyclable and reusable

Plastic Edge Protectors

A simple solution designed to withstand maximum strap tension, these plastic edge protectors are durable and excellent for stabilising loads.

- Protects packaged products from damage, by preventing the strapping cutting into the edges
- Protects against damage to the strapping itself from sharp edges like palletised bricks
- Available in a variety of sizes
- Suitable for use with plastic and steel strapping
- Re-usable

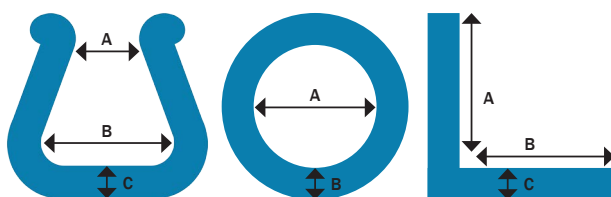

Code	Description	Pack Qty	Outer/Pallet Qty

Provex™ Foam Edge Protection

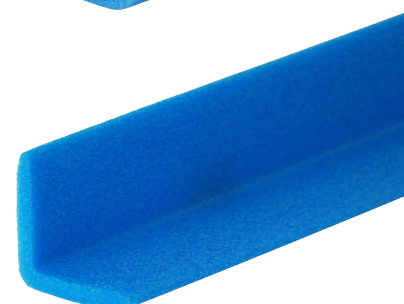

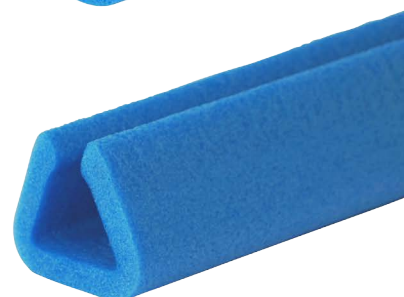

Re-useable foam protection for corners, edges and tubes. High impact protection and rapid application makes foam edge protection the right choice for protecting furniture, shelving, glass, worktops, or doors. The 'O' profile is available in a range of diameters and can be used for protecting polished tubes or insulating pipes (where Government standards allow). It can be easily cut with a knife to your desired size.

- Strong lightweight protection
- Easy to use
- 100% recyclable

Plastic Expanding Corners

This range of tough, durable corner protectors accommodate corner thicknesses of 18-70mm. Can be used in conjunction with plastic or steel strapping, adhesive tapes, staples or even nails.

Code	Description	Pack Qty	Outer/Pallet Qty
11PLECME	Medium 56 x 56 x 18-40mm	250	250
11PLECXL	Extra large 87 x 87 x 35-70mm	250	250

Plastic Open Corners

A tough, durable product offering excellent impact protection to corners. This protector may be used in conjunction with plastic or steel strapping, adhesive tapes, staples or even nails. For increased protection two can be used on a single corner.

Code	Description	Pack Qty	Outer/Pallet Qty
11PLOC70	65 x 65 x 30mm	1000	1000

Polystyrene Corners

These open corner protectors are tough and durable and offer excellent impact protection for fragile corners. As well as being cost effective, they are versatile and can be used on a wide range of products from desks to computer cabinets.

- Creates an air gap for extra protection

Code	Description	Pack Qty	Outer/Pallet Qty
11PSCRPR	75 x 75 x 75 x 25mm	150	900

Unrolling Device

Ideal for layflat tubing or PVC shrink films. Use together with heat sealers and lay flat tubing to make your own size bags.

Code	Description	Pack Qty	Outer/Pallet Qty
26UD0300	300mm wide	1	1
26UD0450	450mm wide	1	1
26UD0600	600mm wide	1	1

Counter Roll Holder

- Dispense rolled products with ease
- Counter top or wall mounted
- Robust construction
- Complete with serrated cutting blade

Code	Description	Pack Qty	Outer/Pallet Qty
26CRH060	600mm wide	1	1

Mobile Roll Dispenser

- Adjustable in length (1.2 to 2m wide)
- Holds multiple rolls
- Convenient for mobile use (complete with castors)
- Suitable for layflat tubing, ecorap™ corrugated paper, polythene sheeting, airsafes™ bubblewrap, megatop™ top sheet rolls, shrink films, maxkraft™ paper rolls, Procell™ foam rolls

How to measure a carton

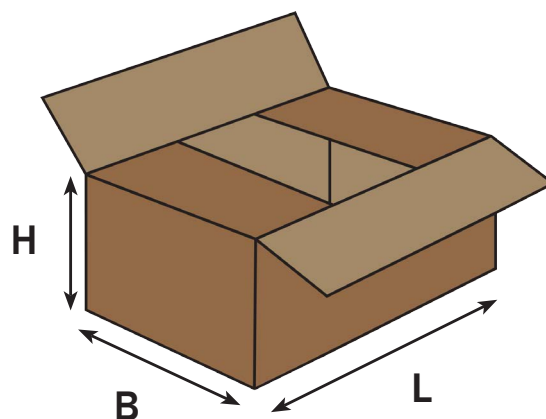

Unless otherwise specified all dimensions are expressed as internal dimensions in mm as follows:

Length (L) x Breadth (B) x Height (H)

Length (L) = the longer dimension at the opening

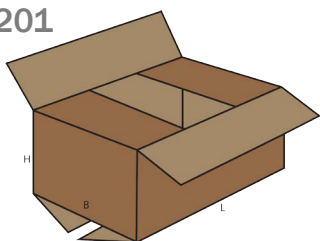

Breadth (B) = the shorter dimension at the opening

Height (H) = the dimension from the top of the opening to the base

Oxbox™ Cartons

OXBOX... leads the way. Discover the strength of the OX! Our new OXBOX board range now defies the once leading double walled box market. It offers aggressive strength but gentle impact on the environment. The super strength, single wall board offers equal strength to that of conventional double wall corrugated board.

Stronger

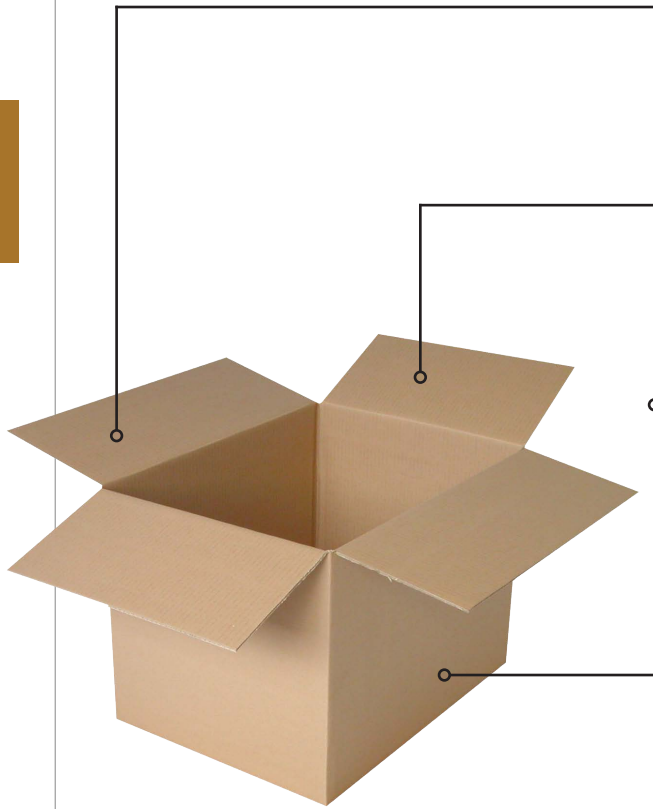

Specially formulated material design combines superior strength and durability compared to standard double wall boxes.

Lighter

Materials used are 7% lighter, meaning lower shipping costs for both goods in and out of your operation, as well as offering 40% savings in storage and handling requirements.

Smarter

Now the UK's most environmentally friendly box range. Our manufacturing process results in a 30% saving in CO2 emissions, combined with increased pallet quantities resulting in significantly reducing your carbon footprint whilst improving performance.

Variflex™ Suspension Pack - Quick

Based on our proven and successful packaging systems, this offers a super fast packaging solution. The transport box is already attached to the film which secures the product. This saves time and storage.

Code	Description	Pack Qty	Outer/Pallet Qty
05VFQU01	100x90x60mm	10	1500
05VFQU02	140x90x30mm	10	1500
05VFQU03	180x110x50mm	10	1500

Variflex™ Suspension Pack - Flex

The special stretch mechanism of Variflex™ ensures that the stretch film fixes the product firmly to the corrugated board insert, so avoiding slippage. The highly flexible but practically tear-free film clings perfectly to the different product contours.

Code	Description	Pack Qty	Outer/Pallet Qty
05VFFL01	100x100x40mm	10	15000
05VFFL02	150x150x60mm	10	3000
05VFFL03	200x200x80mm	10	2000

Variflex™ Suspension Pack - Swing

With the suspension by 2 cushions your product will be 'suspended in the clouds' and is secured in all directions. This flexible system holds the item in position during transit whilst suspending and protecting your product.

Code	Description	Pack Qty	Outer/Pallet Qty
05VFSW01	200x100mm	10	3000

Postal Boxes (Foam Lined)

Ideal for fragile products, these strong one piece foam lined boxes surround your products with protective and cushioning foam, holding them securely in place during transit. The clever box construction also means that there are 3 layers of board on each end giving the box extra strength. The white kraft outer adds for a more attractive appearance.

- Available to order with anti-static foam

Strapping Seals and Buckles

The use of strapping to help to secure your parcel, pallet or load is a essential part of protecting your products during transit. A crucial part of this is the seal which secures the strapping once tensioned. These are available in a variety of sizes and styles for different applications including steel or plastic, heavy duty, serrated, lapover, snap on or buckles.

- PP** = Polypropylene
- WO** = Woven Polyester
- PET** = Extruded Polyester
- SS** = Steel Strapping

Fromm P324 Friction Weld Tool

A battery operated state of the art, ergonomically designed tool for use with polypropylene and polyester plastic strapping. Welds the strap ends together, creating a secure joint. Technical Specification:

- Strapping type: Polypropylene (PP) and Polyester (PET)
- Strapping size: width/thickness 10-16mm/0.4-1.05mm
- Weight including battery: 4.1 kg / 9.0 lbs
- Tool size: L355 x W122 x H128 mm / 14" x 4.8" x 5"
- Strap tension: 300 – 2400 N / 67 – 540 lbs (adjustable)
- Tensioning speed: 145 – 195 mm/s / 5.7 – 7.7 inch/s
- Battery 14.4VDC / 2.4 Ah NiCD 14.4VDC / 3.0 Ah NiMH

26FRFW33	16mm P324	1	1

Plastic Strapping Sealers

Polypropylene sealers are used together with tensioner tool as part of a two-part strapping system. The tensioner is used first to tighten the strapping around the product, then the sealer is used to apply high leverage to crimp the metal seal over the strapping. The jaws of the polypropylene strapping sealer are specifically designed to close the short and long edges of seals which, when sealed, improve the breaking strain of the strap.

Code	Description	Pack Qty	Outer/Pallet Qty
26PPSE12	PP - 12mm standard	1	1

Fully-Automatic Polypropylene Strapping Machine

A high speed solution to strapping various sized parcels, 2 options are available for use with 12mm or 9mm machine strapping. This machine is easy to load and incredibly simple to use. Larger machines available to order

- 27 straps per minute
- Arch size 850mm wide x 600mm high
- Suitable for 9mm or 12mm strap
- Auto strap feed
- External tension control

26PPFA60	PP fully-automatic strapping machine TP601	1	1

Polyester Strapping Tensioners

This heavy duty tensioner is designed for use with polyester and woven polyester strapping.

- Can be used horizontally or vertically on flat surface
- Improves load stability
- Offer increased tensioning capabilities
- Can also be used for polypropylene strapping

Code	Description	Pack Qty	Outer/Pallet Qty
26WOTE19	Suitable for 19mm strapping	1	1

Steel Strapping Tensioners

Tensioners for steel strap are extremely rugged, fast and lightweight suitable for both mobile and stationary applications. These rugged steel strapping tensioner tools provide high tension for steel strapping and are ideal for securing heavy pallets and crates.

- Use in conjunction with Taurex™ steel strapping

Code	Description	Pack Qty	Outer/Pallet Qty
26SSTECC	Suitable for 12-19mm strapping	1	1
26TERP19	Suitable for 19mm strapping (roundpack)	1	1
26SSTE32	Suitable for 32mm strapping	1	1

Steel Strapping Sealers

Designed to be used in conjunction with our steel strapping tensioners, our steel strapping sealers are strong and robust and ideal for continuous use.

- Single notch and double notch available
- Rubber handles for extra grip
- Secure pallets for improved stability and reduced damage

Steel Strapping Safety Cutters

Safety cutters help with Health and Safety within the workplace. When cutting the steel strapping it can easily spring back and cause injury to the person working with it, but the right safety cutters can help to prevent this from happening. This is achieved by the addition of rubber pads located each side of the cutting blade which holds the strapping in place.

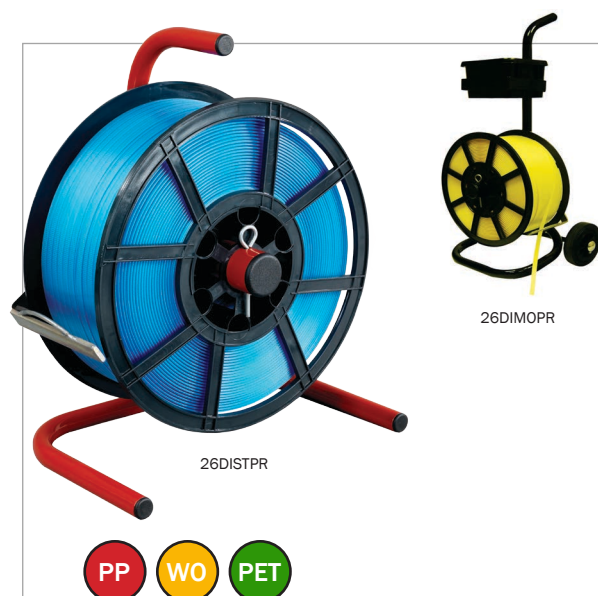

Code	Description	Pack Qty	Outer/Pallet Qty
26SSCC06	13-19mm	1	1

Steel Strapping Combination Tools

This combination steel strapping tool provides the functionality of both a tensioner and a sealer in one convenient tool. This combination tool can be used horizontally, making it ideal for case and pallet work.

Code	Description	Pack Qty	Outer/Pallet Qty
26TLN16C	16mm	1	1
26CTSLBU	19mm	1	1

Plastic Strapping Dispensers

- Strong tubular steel design
- Avoids strapping becoming twisted and unmanageable
- Suitable for use with TENSO™ hand strapping

Envelopes

We stock a range of envelopes including:

- Commercial - A wide range of sizes of Manila or white envelopes for everyday office applications. White envelopes have a blue hatch inner to keep documents confidential.
- Board back - Heavy duty board back envelopes, ideal for sending bendable items like photographs.

Also available to order:

- Rigid corrugated - Light but very tough ideal for sending brochures or book. Peel and seal closure.
- EnDURO tear resistant envelopes - Tri-laminated with a sandwich of paper-polythene-paper. The paper face can be written or printed on. Peel and seal closure.
- Vibrant colour - Vibrant colour envelopes are ideal for improving the presentation and making mail captivating.

A4 Plain Laser Labels Round Corner

Suitable for most Inkjet and Laser printers and copiers. Rounded edge labels have the added benefit that most printers will print to the edge of the label, due to rounded corner labels having a margin.

Code	Description	Pack Qty	Outer/Pallet Qty

Thermal Printer Labels

We stock hundreds of bespoke sized labels, they can also be manufactured to your specific requirements, including special sizes, perforated, pre-printed on a roll or fan-fold. Available in either Thermal Transfer or Direct Thermal.

Thermal Transfer labels require the use of a carbon ribbon which gets transferred onto the label via heat, hence the name "Thermal Transfer." The ribbons can be different colors, so the user is not limited to black print.

Direct Thermal are heat activated labels that require no transfer ribbon. The print colour is usually limited to black.

Below are our most popular standard stock labels.

Code	Description	Pack Qty	Outer/Pallet Qty
22PDL001	38 x 25 x 25mm core (W.E.L) (115mm Outside diameter)	1380 Label(s)	1380 Label(s)

Fromm P324 Friction Weld Tool

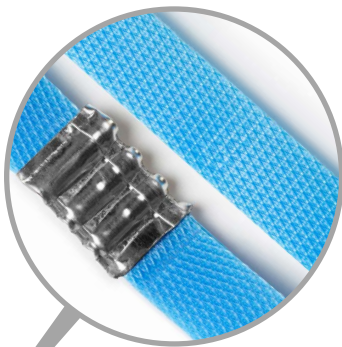

A battery operated state of the art, ergonomically designed tool for use with polypropylene and polyester plastic strapping. Welds the strap ends together, creating a secure joint. Technical Specification:

- Strapping type: Polypropylene (PP) and Polyester (PET)
- Strapping size: width/thickness 10-16mm/0.4-1.05mm
- Weight including battery: 4.1 kg / 9.0 lbs
- Tool size: L355 x W122 x H128 mm / 14" x 4.8" x 5"
- Strap tension: 300 – 2400 N / 67 – 540 lbs (adjustable)
- Tensioning speed: 145 – 195 mm/s / 5.7 – 7.7 inch/s
- Battery 14.4VDC / 2.4 Ah NiCD 14.4VDC / 3.0 Ah NiMH

Code	Description	Pack Qty	Outer/Pallet Qty
26FRFW33	16mm P324	1	1

Plastic Strapping Sealers

Polypropylene sealers are used together with tensioner tool as part of a two-part strapping system. The tensioner is used first to tighten the strapping around the product, then the sealer is used to apply high leverage to crimp the metal seal over the strapping. The jaws of the polypropylene strapping sealer are specifically designed to close the short and long edges of seals which, when sealed, improve the breaking strain of the strap.

Code	Description	Pack Qty	Outer/Pallet Qty
26PPSE12	PP - 12mm standard	1	1
26PPSE04	PP - 13mm offset serrated	1	1

Fully-Automatic Polypropylene Strapping Machine

A high speed solution to strapping various sized parcels, 2 options are available for use with 12mm or 9mm machine strapping. This machine is easy to load and incredibly simple to use. Larger machines available to order

- 27 straps per minute
- Arch size 850mm wide x 600mm high
- Suitable for 9mm or 12mm strap
- Auto strap feed
- External tension control

Code	Description	Pack Qty	Outer/Pallet Qty
26PPFA60	PP fully-automatic strapping machine TP601	1	1

Polyester Strapping Tensioners

This heavy duty tensioner is designed for use with polyester and woven polyester strapping.

- Can be used horizontally or vertically on flat surface
- Improves load stability
- Offer increased tensioning capabilities
- Can also be used for polypropylene strapping

Code	Description	Pack Qty	Outer/Pallet Qty
26WOTE19	Suitable for 19mm strapping	1	1

Steel Strapping Tensioners

Tensioners for steel strap are extremely rugged, fast and lightweight suitable for both mobile and stationary applications. These rugged steel strapping tensioner tools provide high tension for steel strapping and are ideal for securing heavy pallets and crates.

- Use in conjunction with Taurex™ steel strapping

Code	Description	Pack Qty	Outer/Pallet Qty

Steel Strapping Safety Cutters

Safety cutters help with Health and Safety within the workplace. When cutting the steel strapping it can easily spring back and cause injury to the person working with it, but the right safety cutters can help to prevent this from happening. This is achieved by the addition of rubber pads located each side of the cutting blade which holds the strapping in place.

Code	Description	Pack Qty	Outer/Pallet Qty
26SSCC06	13-19mm	1	1

SS

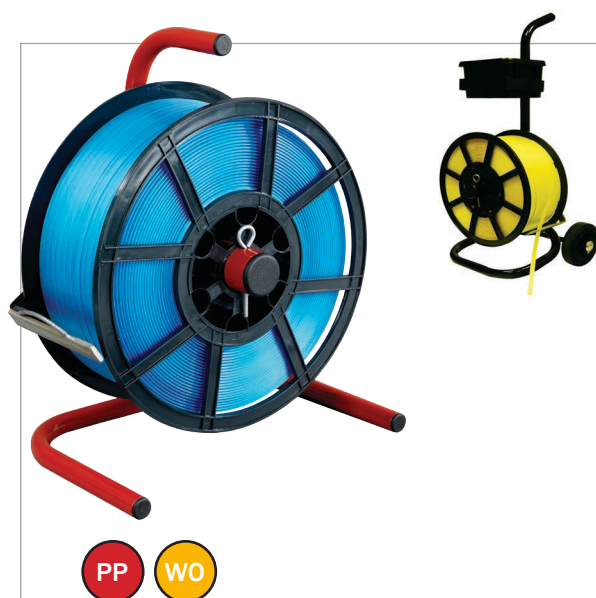

Steel Strapping Combination Tools

This combination steel strapping tool provides the functionality of both a tensioner and a sealer in one convenient tool. This combination tool can be used horizontally, making it ideal for case and pallet work.

Budget Shelving

Economy system - great for the office, stockrooms or stores.

- Maximum load capacity: 175kgs per shelf
- Economy system for general use
- No nuts or bolts - just tap together for simple assembly
- Steel structure with chipboard decks
- TUV GS Tested and Certified

Code	Description	Pack Qty	Pallet/Carton Qty
40BS175A	1780 x 900 x 300	1	1

Industrial Shelving

Stronger shelving available in multiple sizes.

- Maximum load capacity: 265kgs per shelf
- No nuts or bolts - just tap together for simple assembly
- Shelving adjustable every 40mm
- Steel structure with chipboard decks
- Industrial strength
- Manufactured in Europe
- TUV GS Tested and Certified

Code	Description	Pack Qty	Pallet/Carton Qty
40IS265D	1780 x 900 x 450mm (265kg UDL)	1	1

DESIGN

Discuss your requirements with one of our product design experts, you can then have as much or a little input as you like throughout the design process.

APPROVAL

We will then provide you with pre-production proofs for you to check and approve.

IMPLEMENTATION

Take delivery and enjoy the benefits of your new bespoke product, process or service.

Packaging is no longer just packaging. It's a branding tool, and how you choose to present your product to your target audience is key to getting this first impression right. It doesn't matter how great your product is if the packaging has already disappointed the customer either by presentation, or worse, by its performance.

- Give your customer a better first impression
- Stand out from the crowd
- Add prestige to your brand
- Cut down on breakages and returns

Our team of graphic and constructional designers will develop the best packaging solution for your application, working closely with you throughout the development process. From the selection of the appropriate materials to advice on print and manufacturing processes, we will develop a detailed specification that will ensure performance and compliance whatever the end purpose.

Bespoke Tape

An attractive and cost-effective way to promote your branding or corporate identity. Available in 150m e-tape™, 66m standard tape or 990m machine tape. Choose from vinyl, low noise or polypropylene tape and up to 4 colour printing.

Bespoke Protective

Our protective range offers all of the essentials to keep your products safe during transit. To enhance the appearance of your products try our printed lay flat tubing, polythene sheeting, pallet covers and edge protectors. If you are looking for the ultimate in protection try our bespoke polystyrene or foam fitments.

Bespoke Cardboard

Often the first impression your customer gets of your company is box your product comes in. Sometimes forgotten, this is an integral part of customer satisfaction.

Whether you require a made to measure plain or fully printed box or a bespoke fitment our innovative design team will produce the perfect solution.

Bespoke Strapping

Custom size and printed:

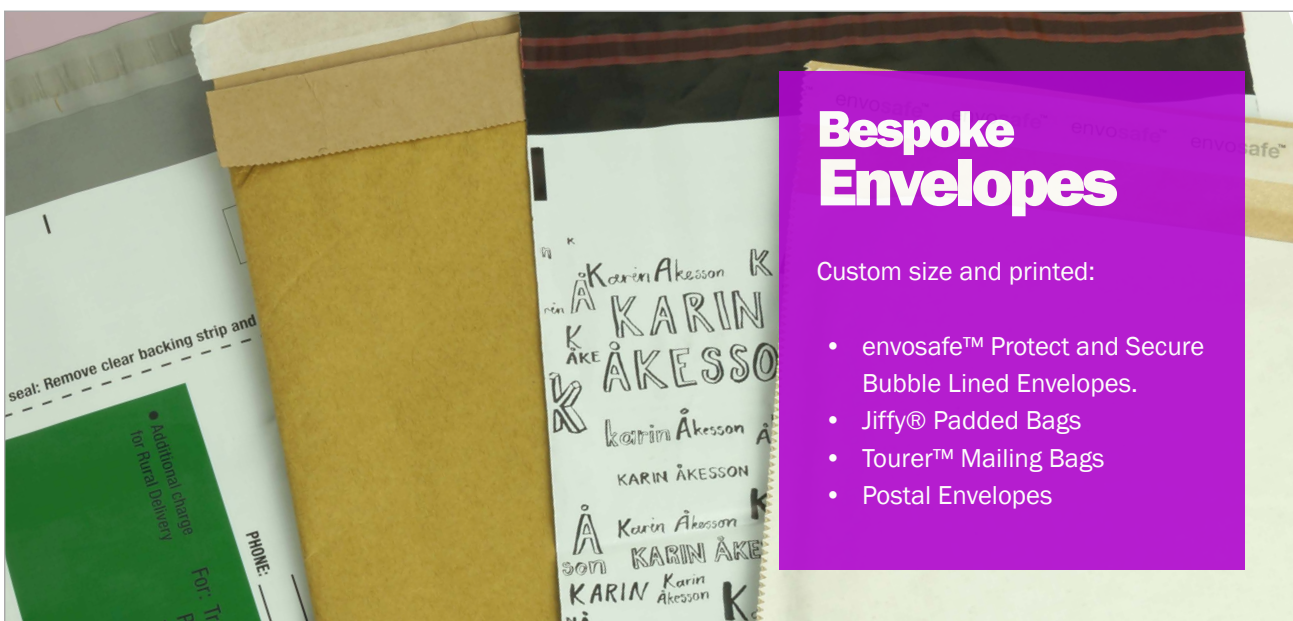

- Tenso™ Polypropylene Hand Strapping
- Tenso™ Polypropylene Machine Strapping
- Tornado™ Extruded Polyester Strapping

Bespoke Bags

Custom size and printed:
